

# Tilgin HG2330

## Ethernet Home Gateways

Tilgin HG2330 product family offers high performance gateways with superior Wi-Fi in a very small and discreet housing. It offers unique flexibility with multiple mounting options.

### HG 2330 highlights

- Any client beam forming with 3\*3 Wi-Fi
  - Implicit 2.4GHz
- Multi purpose stand
  - Any placement on desktop
  - 360° -rotation on wall mount
- Industry design
  - Minimum footprint
  - Fit anywhere
  - Easy to brand for an operator
- HGA gateway software
  - Full TR-069 support
  - Fail safe provisioning
  - Operator log

Tilgin's HG2330 family of products offers a flexible and high capacity product in a tiny form factor.

When having the product in your hands, do not get fooled by its mere size. The product offers full gigabit routing and a state of the art superior Wi-Fi solution. It runs all services offered with Tilgin HGA and is prepared for all foreseeable future services.

The casing from Tilgin is designed to be small, flexible and discreet. The product is wall mountable in any direction. A small mounting kit comes with the product which makes mounting very quick and easy. The hassle of using a drilling template is no longer present. The product can also lay flat on any surface or stand up by using the mounting kit as a snap on foot.

The product is also offered in an entry level version with fast Ethernet LAN ports, still with gigabit Ethernet WAN. The routing capacity and excellent Wi-Fi remains the same also on this model, the only difference being the fast Ethernet LAN ports.

The multi-purpose stand also offers a wall mount solution in addition to the standing and laying alternatives.

## Tilgin HG2330 Home Gateways

The HG2330 gateways are designed using a distributed HW architecture in order to guarantee full QoS also for gigabit services. The Wi-Fi solution has the best in class coverage and reach.

Status LEDs and a push button for WPS

### HG2330 Model Configurations

Model	Memory		WAN	VoIP	LAN and Home Networking				
	Flash (MBytes)	RAM (Mbytes)	Copper Ethernet ports	PSTN	Ethernet ports	USB Host ports	WLAN		
							SSID	WPS	2.4 GHz 802.11n
HG2331	128	128	1 x GE	2 x FXS	4 x FE	1	4	Yes	MIMO 3x3 2 spatial streams
HG2332	128	128	1 x GE	2 x FXS	4 x GE	1	4	Yes	MIMO 3x3 2 spatial streams

All products offers up to 1800 Mbps accumulated routing utilized with a built-in router engine.  
All products support Line rate switching on all interfaces simultaneously.

WAN interfaces	WLAN interfaces	Regulatory Compliances
10/100/1000 Base-Tx Auto negotiation, Auto MDI/MDI-X Connector: RJ-45	IEEE 802.11n, 2.4GHz MIMO 3x3, two spatial streams 300 Mbps link speed 4 SSID	CE mark WEEE RoHS
LAN interfaces	IEEE 802.11i/ WEP, WPA, WPA2 per SSID IEEE 802.11e/WMM, QoS for voice and video over WLAN WPS Solutions, Wireless Protected Setup, with PIN and Push Button Automatic channel bandwidth and optimum channel selection Implicit beam forming	Physical Specifications
10/100 Base-Tx (HG2331) 10/100/1000 Base-Tx (HG2332) Auto negotiation, Auto MDI/MDI-X Connector: RJ-45	Internal antennas	Dimension 180x157x37 Weight: 0.32 kg Operating temperature: 0-40C/ 32-104F Non-operating temperature: -20-60C/ -4-140F Operating humidity, RH, non-condensing: 10-90% Non-operating humidity, RH, non-condensing: 5-95% External Power Supply: In: 100-240VAC, Out: 12VDC 2A
Voice interfaces	Switch	
Ring voltage: min 45vrms Connector: RJ-11 REN, Ring Equivalency Number per FXS: 5	2048 MAC address table entries Full 4K width VLAN support Support for up to 64 simultaneous active VLAN 32 CoS queues	
USB Interfaces	Traffic classification based on ingress port, 802.1q, 802.1p, DSCP, MAC address, IP protocol, IPv4/IPv6 address, IP packet length, UDP/TCP ports.	
USB 2.0 Host	Stacked VLAN support Ingress port and flow based policing Programmable support for traffic monitoring Support for jumbo frames	
Green		
The products are designed for CoC compliance.		

## Tilgin HG2330 and Tilgin Home Application software

Tilgin Application Software is common for and integrated to all Tilgin Home Gateways. The application software can be easily upgraded from standard to premium features by normal auto-provisioning. For further details of HGA see separate datasheet at [www.tilginsolutions.com](http://www.tilginsolutions.com).
